SAFESPACE LGBTQIA+

Company name : École internationale Gaston Thorn

Activity sector : Enseignement

Company category : Secteur Public

Description of the action

A room is made available where students can exchange ideas and receive counselling as required.

Context

Identitarian diversity is part of everyday life in our society. Even though a lot has already been achieved, young people in particular find it difficult to orientate themselves. There are questions, uncertainties, but also still discriminatory situations.

Objectives

For the third year in a row now, our aim as a school is to offer young people a safe space where they can exchange ideas and receive counselling.

Approach

For the third year in a row now, our aim as a school is to offer young people a safe space where they can exchange ideas and receive counselling.And this space is often gratefully accepted and utilised.

Impact

Sensitisation
Retreat
Exchange
Empowerment

« To do »

A room must be provided that is available at certain times, preferably at all times.

« Not to do »

The room should not be exposed so that the sense of a safe space is given and the pupils do not feel exposed to negative situations on the way there.
